2 – BUSINESS ENVIRONMENT

Cyprus is a small country at the meeting point of the three old continents, Europe, Asia and Africa. Its importance in doing business is mainly arising from its potential for beneficial international tax planning.

This is due to a combination of factors, including:

- The user-friendliness and practically zero-tax status of the Cyprus Holding Company (see further below the summary of advantages)
- Membership of the EU
- Wide network of Treaties for the Avoidance of Double Taxation, including some with large countries which have comparatively beneficial provisions
- Absence of withholding taxes on dividends, interest or royalties paid from Cyprus
- One of the lowest corporate income tax rates in the EU at 12.5%
- Exemption from tax of many types of income, including:
 - o gains on disposal of shares and other securities,
 - o capital gains,
 - o for non-domiciled individuals, dividend and interest.
- Tax incentives introduced, including:
 - o the special mode of taxation of income arising from IP rights;
 - o the deductibility of interest on loans to acquire 100% subsidiaries
 - o notional interest deduction for investments into Cyprus companies

Cyprus is not a tax haven. It has strict rules in relation to accounting, audit and tax compliance and is implementing rigorous anti-money laundering measures. International business prepared to accept and comply with these requirements may derive significant benefits in terms of overall reduction of the tax burden.

Here's a summary of the most important tax advantages of a Cyprus holding company:

- Income from dividends is tax-free
- Gains on the sale of shares are tax-free.
- Proceeds from the liquidation of subsidiaries abroad are tax-free
- Capital gains on disposals of capital assets are tax-free.
- Profits from activities of a Permanent Establishment abroad are tax-free.
- Lower withholding tax rates in other countries on remittances of income from dividends, royalties or interest due to wider applicability of Treaties for the Avoidance of Double Taxation.
- Tax-free distributions by Cyprus Holding Companies to their non-resident or non-domiciled resident shareholders

GEOGRAPHY AND POPULATION

Cyprus is situated in the eastern Mediterranean, lying at the hub of three continents and close to the busy trade routes linking Europe with the Arab World and the Far East.

Cyprus' total area is 9,251km², making it the third-largest island in the Mediterranean, after Sicily and Sardinia. The island enjoys an excellent climate with about 300 days of sunshine per year. The temperature varies from 6°C to 13°C in winter to 21°C to 36°C in summer.

Cyprus' population is estimated at approximately 1.2 million. The official languages of the Republic are Greek and Turkish, but English is widely spoken and regularly used in business. Nicosia, with an estimated population of approximately 300,000, is the capital city and situated in the middle of the island. All other major cities are on the coast and all are popular holiday resorts, as well as business centres.

GOVERNMENT AND LEGAL SYSTEM

The structure of government is similar to other western democracies where human rights, political pluralism and private property are safeguarded.

The Republic's constitution is largely modelled on the American constitution. The Head of State is the President who is elected for a five-year term of office. The Council of Ministers, appointed by the President, is the executive organ of the Republic. Legislative power lies with the House of Representatives whose members hold office for five years. A multi-party system is in operation and the electoral system is based on proportional representation.

The island was under British administration from 1878 to 1960 when it became an independent republic. The legal system and all statutes regulating business matters are based essentially on English Law. Most laws are officially translated into English. English is widely used and anyone may correspond with government departments in this language. Cyprus became a member of the European Union on 1 May 2004 and joined the Euro Zone on 1 January 2008.

POLITICAL STABILITY

The Republic of Cyprus is a member of the European Union, the United Nations, the Council of Europe and the British Commonwealth. It has a very stable political system.

Part of the territory of Cyprus has been occupied since 1974 by Turkey. Efforts are being made to resolve the problem. It should be noted that since 1974, no serious military incidents have taken place on the island between the two sides.

EDUCATION AND HUMAN RESOURCES

Primary education is free and universal.

Most elementary and secondary schools are state-owned and of a high standard. In addition, there are numerous first-class private schools. These schools offer tuition in Greek, English, Russian, French, Italian, Armenian and Arabic and they offer specialised courses leading mainly towards entrance to British and American universities or to professional qualifications.

A high proportion of Cypriots have been to university, either in Cyprus or abroad. As a consequence, Cyprus ranks among the leading countries in the world in terms of its proportion of university graduates. Qualified technical, clerical and professional staffs with wide experience and fluency in English and other languages are available for employment at reasonable rates of remuneration.

TRANSPORT AND TELECOMMUNICATIONS

A wide network of air-routes connects Cyprus with Europe, Africa and Asia.

The island has two busy international airports, in Larnaca and Paphos, handling a large number of scheduled flights and served by many international and chartered airlines. Cyprus is an established international transit station for commercial air transportation with excellent connections within the entire region. Seaborne traffic is served by a fully renewed port system comprising the multi-purpose ports of Limassol and Larnaca, the industrial port of Vassiliko, and the three specialised oil terminals of Larnaca, Dhekelia and Moni.

A large number of shipping lines include Cyprus in their regular schedules to and from five continents, ensuring that thousands of ships call at Cypriot ports each year.

Cyprus has an advanced telecommunications system, based on the latest technology.

ECONOMY

The economy of Cyprus is based on free enterprise, with most economic activity taking place in the private sector.

The service sector, which dominates the Cypriot economy, accounts for about half of employment and almost two-thirds of its GDP.

In January 2019, the average rate of inflation was 2.1% and the unemployment rate was 7.4%. The standard of living is relatively very high with estimated annual income per capita for 2017 of US\$29,600. The Cyprus economy recorded real GDP growth of about 3.8% in 2018.

The economy of Cyprus is in a good state, with economic growth and improving public finances.

In early 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organisation, causing huge impact on people's lives, families and communities. Significant challenges to people and organisations have been imposed globally and on an increasing scale, giving rise to responses that impact businesses through tax, legal, and economic reforms.

The Government of Cyprus was quick to respond to both the public health challenge, as well as introducing a number of special financial support measures in an effort to mitigate the negative financial impact on the economy. (See Appendix III for a brief summary of the key measures).

CURRENCY

Cyprus joined the Euro zone as of 1 January 2008. There are no exchange controls in Cyprus.

INTERNATIONAL BUSINESS

Cyprus is a developed and established international business centre, with many tax and other advantages for international business.

The extensive network of treaties which Cyprus has formed for the avoidance of double taxation makes the island very attractive to international investors.

There are a large number of International Business Companies (IBCs) i.e. companies incorporated in Cyprus whose beneficial ownership and business activities lie outside Cyprus. It is worth mentioning that Cyprus has amongst the lowest corporation tax rate in the EU at 12.5% on operating profits. Furthermore, as holding companies in Cyprus are in practice free of any tax both on their income from dividends and on their proceeds on disposal of their investments, without any restrictions in relation to the time for which the investment was held or in relation to thin capitalisation, the island has become a favourable location for establishing holding companies by international businesses.

EUROPEAN UNION AND OECD: TAX REFORMS

The tax system of Cyprus fully conforms to EU directives and codes of conduct and with the OECD to eliminate 'harmful tax practices'.

3 – FOREIGN INVESTMENT

FOREIGN DIRECT INVESTMENT (FDI) POLICY

In order to further enhance the foreign investment intensity, the Government of Cyprus has liberalised the Foreign Direct Investment (FDI) Policy not only for EU citizens but also for investors from third countries in most sectors of the economy as from 1 October 2004.

- Limitations related to the minimum level of investment and foreigners' participation percentage have been abolished, in most sectors of the economy, allowing for up to 100% equity participation in registering companies or acquiring shares in existing companies.
- Administrative procedures have been simplified and measures have been taken to streamline the infrastructure regarding foreign investment, thus reducing the level of bureaucratic intervention and fostering improved economic activity.
- Consequently, foreign companies now have the opportunity of investing and establishing business in Cyprus on equal terms with local investors.

INVEST CYPRUS (The Cyprus Investment Promotion Agency (CIPA))

In 2008, the Cyprus Investment Promotion Agency (now rebranded as Invest Cyprus) was formed and fully funded by the Government of Cyprus.

Its role is to:

- Promote Cyprus as an attractive international investment centre in key priority growth sectors
- Advocate reform in Cyprus required to improve the regulatory and business environment and infrastructure
- Provide investor support with after care and further development services

Furthermore, CIPA promotes Cyprus as an attractive investment destination in various priority sectors of the economy, by developing leads and driving demand for investments into the country, while serving as the First Point of Contact to all foreign investors.

THE CYPRUS INVESTMENT FUNDS ASSOCIATION (CIFA)

The Cyprus Investment Funds Association (CIFA) was established in 2013 at the initiative of the CIPA as a natural development of the progress made thus far in promoting Cyprus as a competitive investment funds jurisdiction.

The mission of CIFA is to:

- Help its members capitalise on industry trends
- Shape regulation
- Encourage professionalism, integrity and quality
- Promote the Cyprus investment funds industry.

There are two main fund regimes in Cyprus:

- Alternative Investment Funds (AIF)
- Undertakings for Collective Investment in Transferrable Securities (UCITS)

To set up a fund in Cyprus you must obtain authorisation from the Cyprus Securities and Exchange Commission (CySEC).

The following legal structures are available in Cyprus:

AIF with a limited number of investors:

- Variable Capital Investment Company (VCIC)
- Fixed Capital Investment Company (FCIC)
- Limited Partnership (LP)

AIF with no limitation as to the number of investors:

- Variable Capital Investment Company (VCIC)
- Fixed Capital Investment Company (FCIC)
- Limited Partnership (LP)
- Common Fund (CF)

UCITS can take the following legal forms:

- Common Fund
- Variable Capital Investment Company

4 – SETTING UP A BUSINESS

TYPES OF BUSINESS ENTITIES IN CYPRUS

Business entities in Cyprus can operate under the following forms:

- Limited company
- Sole proprietor or partnership
- Branch
- European Public Limited Companies, otherwise known as Societas Europaea (“SE”).

The redomiciliation of foreign companies to Cyprus, and vice versa, is possible. This means that companies may migrate from another jurisdiction to Cyprus (and vice versa) without the need for a takeover or a transfer of assets to another company already registered in the destination country.

REGISTRATION PROCEDURE OF A LIMITED LIABILITY COMPANY

Under the Companies Law, the procedure for the formation and registration of a company in Cyprus is quite simple and as follows:

APPROVAL OF NAME

Before any other steps are taken with regard to the incorporation of a company, the Registrar of Companies must be approached to ascertain whether the proposed name is acceptable.

FILING OF THE MEMORANDUM AND ARTICLES OF ASSOCIATION

To effect registration of a company, the Memorandum and Articles of Association must be submitted for filing with the Registrar of Companies.

A Specimen Memorandum and Articles of Association can usually be made available but care should be taken to ensure that the first few main object clauses are tailored to the specific circumstances and main business objects (aims or activities) of the company.

SHARE CAPITAL REQUIREMENTS

There are no legal requirements as to the minimum or maximum share capital of the company. In the case of foreign direct investment, there are some indicative minimum levels of investment depending on the sector.

SHAREHOLDERS

Under the relevant legislation there must be at least one shareholder, for whom the following information is required to be disclosed to the Registrar of Companies:

- Full name & nationality
- Address & occupation
- Number of shares held.

DIRECTORS

How directors are appointed is usually laid down by Articles of Association, as well as how many constitute a quorum. However, it is usual for there to be at least two directors. The names of the directors are also required to be disclosed to the Registrar of Companies.

COMPANY SECRETARY

The appointment of the secretary is made by the directors in accordance with the Articles of Association. For practical purposes a body corporate may be appointed secretary.

REGISTERED OFFICE

Every company must have a registered office in Cyprus, which is determined by the directors.

5 – LABOUR

LABOUR AND EMPLOYMENT CONDITIONS

The labour force in Cyprus consists of hard-working and skilled people, working at relatively inexpensive rates.

There is a general consensus between management and unions and industrial peace safeguards exist for on-going production and a growing economy. The unemployment rate was at about 6.0% in January 2020 (7.4% in 2019, 8.37% in 2018, 11.1% in 2017, 14% in 2016 and 17% in 2013).

Cyprus ranks amongst the leading countries in the world in terms of the proportion of university graduates, ensuring the availability of high-quality managerial and administrative personnel. (Cyprus is ranked top for graduates amongst EU countries, with 47% having tertiary education qualifications).

6 – TAXATION

MAIN FOCUS OF INCOME TAX LEGISLATION

Residents of Cyprus are taxed on their worldwide income. Non-residents are taxed only on some specific income from sources in Cyprus.

An individual is a tax resident in Cyprus if he/she stays in Cyprus for more than a total of 183 days in any calendar year.

As of 1st January 2017, an individual may also be considered as a Cyprus tax resident, if he/she satisfied the “60-day rule”, if the following conditions are satisfied:

- He/she does not spend more than a total of 183 days in any State within a tax year, and
- He/she is not a tax resident of another State within the same tax year, and
- He/she remains in Cyprus for at least 60 days in the tax year, and
- He/she carries on a business in Cyprus or is employed in Cyprus or holds an office in a Cyprus tax resident person at any time during the tax year, and
- He/she maintains a permanent home in Cyprus that is either owned or rented.

A company is resident in Cyprus if its business is centrally managed and controlled in Cyprus. (Incorporation is, by itself, insufficient to establish residence in Cyprus).

There are three main forms of direct taxation in Cyprus:

- Income Tax (see below)
- Special Contribution for Defence (see below)
- General Health System (see below)

All the sections below should be read to obtain a full understanding of the main forms of direct taxation affecting companies and individuals.

CORPORATION TAX

BASIC FEATURES

As stated above, a company is resident in Cyprus if its business is centrally managed and controlled in Cyprus.

- A Cyprus resident company is taxed on its worldwide income
- The rate of tax is 12.5% (see below for significant exemptions)

TAX EXEMPTIONS

Tax exemptions apply to the following income:

- Dividend income
- Profits from the sale of shares and other securities
- 100% of passive interest
- Profits of a permanent establishment (p.e.) abroad, provided the foreign tax is not significantly lower than Cyprus tax and the p.e. does not derive more than 50% of its total income from investments.

Note: With effect, as from 01 July 2016, taxpayers may elect to tax the profits earned by a foreign p.e. with a tax credit for foreign taxes incurred on those foreign p.e. profits. Transitional rules apply in certain cases on the granting of foreign tax credits where a foreign p.e. was previously exempt and subsequently a taxpayer elects to be subject to tax on the profits of the foreign p.e.

INTEREST EXPENSE FOR ACQUISITION OF 100% SUBSIDIARY

Interest expense incurred for the direct or indirect acquisition of 100% of the share capital of a subsidiary company will be treated as deductible for income tax purposes provided that the 100% subsidiary company does not own (directly or indirectly) any assets that are not used in the business. If the subsidiary owns (directly or indirectly) assets not used in the business the interest expense deduction is restricted to the amount which relates to assets used in the business. This applies for acquisitions of subsidiaries from 1 January 2012.

NOTIONAL INTEREST DEDUCTION (NID)

Equity introduced to a company as from 1 January 2015 (new equity) in the form of paid-up share capital or share premium is eligible for an annual notional interest deduction (NID). The annual NID deduction is calculated as an interest rate on the new equity.

NID Cap of 80%: The NID deduction cannot exceed 80% of the taxable profit derived from the assets financed by the new equity

The applicable reference rates are as follows:

- Until 31 December 2019 (pre amendment)
The relevant interest rate is the yield on 10-year government bonds (as at December 31 of the prior tax year) of the country where the funds are employed in the business of the company plus a 3% premium (subject to a minimum amount which is the yield on the 10 year Cyprus government bond as at the same date plus a 3% premium).
- From 1 January 2020 (post amendment)
The relevant interest rate is the yield on 10-year government bonds (as at December 31 of the prior tax year) of the country where the funds are employed in the business of the company plus a 5% premium (there is no minimum reference rate). Where the country in which the new equity is employed/invested does not have an issue 10 year government bond, the reference rate is the Cyprus 10 year government bond yield plus 5%.

For 2020 the minimum relevant NID interest rate is 3.536% (5.302% for 2019). A taxpayer may elect not to claim all or part of the available NID for a particular tax year. Certain anti-avoidance provisions apply.

TAX LOSSES

The tax loss incurred during a tax year and which cannot be set off against other income, is carried forward subject to conditions and set off against the profits of the next five years.

- Group relief is available
- Losses for a p.e. abroad can be set off against other profit of the Company

Note:

1. As from 1 January 2015, interposition of a non-Cyprus tax resident company(ies) will not affect the eligibility for group relief as long as such company(ies) is tax resident of either an EU country or in a country with which Cyprus has a double tax treaty or an exchange of information agreement (bilateral or multilateral).

2. As from 1 January 2015, a Cyprus tax resident company may also claim the tax losses of a group company which is tax resident in another EU country, provided such EU Company firstly exhausts all possibilities available to utilise its losses in its country of residence or in the country of any intermediary EU holding company.

WITHHOLDING TAXES

No Cyprus withholding tax on dividends or interest is paid to non-residents

RELIEF FROM FOREIGN TAXES

Foreign taxes, both underlying and withholding, are deducted from taxes in Cyprus on the same income.

SPECIAL MODES OF TAXATION

SHIPPING COMPANIES

As of 1 January 2010 a Tonnage Tax System (TTS) was introduced, which covers the three main “Maritime Transport” Activities offered in international shipping today, namely ship-owning, ship-management (split into crew and/or technical management) and chartering. It also applies to fleets comprising of either EU flag or “mixed fleets” (EU & Non-EU Flag ships).

Under the new TTS, no tax is imposed on:

- Profits from shipping operations
- Dividends paid directly or indirectly out of such profits or from the sale of a ship
- Interest earned on funds used as working capital or for the financing, operation or maintenance of the ship
- Profits from the sale of a ship or the shares of the ship-owner company.

The same tax exemptions are offered with regard to the taxation of charterers and ship-management companies, respectively.

Furthermore, the remuneration of a Cypriot ship crew is tax exempt.

INTERNATIONAL TRUSTS

Trust Law in Cyprus is based on English legal principles and the legislation in force follows the English Trustees Act of 1925. In 1992, the International Trust Law was enacted in order to facilitate the use of the basic law by non-residents. The law was amended on 9 March 2012 to become more attractive.

A Cyprus international trust is a trust which has the following characteristics:

- The settlor and beneficiaries other than charitable institutions must not be Cypriot residents during the calendar year prior to the year of creation of the trust (may become Cypriot residents at any time following its creation)
- The trustees may vest the beneficiaries’ interests in movable and immovable property both in Cyprus and abroad and in shares in Cypriot companies
- The trust can have Cyprus sourced income
- A trust may continue to be valid and enforceable without time restriction.

Taxation of a trust in Cyprus:

- Transparent for Cyprus tax purposes which means that the income is only assessable on Cypriot resident beneficiaries
- No capital gains tax is charged on the disposal of assets held abroad.

INSURANCE COMPANIES

Insurance companies of general and life business are taxable in the same way as all other companies. In the case where there is no tax payable or where the tax payable on the taxable income of the life business is less than 1.5% of the gross amount of the insurance premiums then the insurance company pays the difference as additional tax.

PENSION INCOME FROM SERVICES RENDERED ABROAD

The pension income of any individual resident in the Republic, which arises from services rendered abroad, is taxed at a rate of 5% for amounts exceeding €3.420 per annum. The taxpayer has the right to choose to be taxed either under the special mode of taxation as stated above or at normal rates. If the latter is chosen the pension is added to the individual's other income.

ROYALTY INCOME ARISING IN CYPRUS OF A NON-RESIDENT

The gross income arising from intellectual property rights, other exploitation rights, compensations or other similar income arising from sources within the Republic, of a person who is not resident in the Republic, is subject to withholding tax at a rate of 10%. Royalties received by a connected company registered in a European Union Member State are exempt from tax (subject to conditions). Rights granted for use outside the Republic are not subject to any withholding tax.

FILM ROYALTIES, ETC

The gross income derived by a non-resident person in respect of royalties arising from film projection in the Republic is subject to withholding tax at a rate of 5%. Royalties received by a connected company registered in a European Union Member State are exempt from tax (subject to conditions).

PROFITS OF PROFESSIONALS, ENTERTAINERS, ETC

The gross income derived by an individual not resident in the Republic from the exercise in the Republic of any profession or vocation, the remuneration of public entertainers not resident in the Republic, and the gross receipts of any theatrical or musical or other group of public entertainers, including football clubs and other athletic missions from abroad, derived from performances in the Republic is subject to a 10% withholding tax.

INTEREST AND ADDITIONAL PENALTY OF 5% FOR LATE PAYMENT OF TAX WITHHELD

Tax withheld on payments to non-Cypriot residents should be paid to the Inland Revenue department by the end of the following month. In case where the tax is not paid within the deadline, an additional penalty of 5% will be imposed on the tax withheld in addition to any interest that may be imposed.

THE CYPRUS ALTERNATIVE INVESTMENT FUNDS (AIFS) AND UNDERTAKINGS FOR COLLECTIVE INVESTMENT IN TRANSFERABLE SECURITIES (UCITS)

AIFs and UCITs are liable to tax or not depending on their legal status.

Under certain conditions, management fees and administration fees charged for AIFs and UCITs funds can be exempt from VAT.

Taxation of Funds

Funds which are opaque for tax purposes and which are managed and controlled in Cyprus are tax resident in Cyprus and are subject to the general provisions of the Cyprus tax framework.

In the case of funds which have compartments, each compartment is assessed separately for tax purposes subject to the provisions of the law. Under circumstances and depending on the legal form of the fund, some funds may be transparent for tax purposes. Additional key provisions which are relevant to funds are set out below:

Sale of Fund Units

There is no Capital Gains Tax on the gains arising from the disposal or redemption of units in funds unless the fund owns immovable property in Cyprus. However, even if it owns immovable property in Cyprus, no Capital Gains Tax arises if the Fund is listed on a recognized stock exchange.

Stamp Duty

The subscription, redemption, conversion or transfer of a fund's units should be exempt from Cyprus stamp duty.

No creation of a permanent establishment

Based on the Cyprus tax legislation no Cyprus permanent establishment will be deemed to arise:

- i. for non-Cyprus resident investors as a result of investment into Cyprus tax-transparent investment funds, or,
- ii. as a consequence of the management from Cyprus of non-Cyprus investment funds.

Management services

The management fee charged for the provision of collective management services to investment funds is exempt from VAT, provided certain conditions are met.

Carried interest / performance fee for AIF and UCITS fund managers

Certain employees and executives of the following investment fund management companies or internally managed investment funds may opt for a different mode of personal taxation:

- Alternative Investment Fund Managers authorised under the Alternative Investment Fund Managers Law 56(I)/2013, as amended (hereinafter, the 'AIFM Law');
- Internally managed AIFs authorised under the AIFM Law;
- UCITS Management Companies authorised under the UCI Law; and
- Internally managed UCITS authorised under the UCI Law.

Subject to conditions, their variable employment remuneration which is effectively connected to the carried interest of the fund managing entity may, through an annual election, be separately subject to Cyprus tax at the flat rate of 8%, with a minimum tax liability of €10.000 per annum. This special mode of taxation is available for a period of 10 years.

INTELLECTUAL PROPERTY RIGHTS

Expenditure incurred for the development or acquisition of intangible assets as defined in the Patent Rights Law, the Intellectual Property Law and the Trademarks Law is tax deductible.

As per the “new” Cyprus IP box, (provision applies with effect from 1 July 2016), the tax amortisation of any expenditure of a capital nature for the acquisition or development of IP, is allocated over the lifetime of the IP (maximum of 20 years). An 80% deemed deduction applies on the net profit as calculated using the modified nexus fraction.

As per the “old” Cyprus IP box, any expenditure of a capital nature for the acquisition or development of IP is claimed a tax deduction in the year in which it was incurred and the immediate four following years on a straight-line, are tax deductible. An 80% deemed deduction applies to the net profit, from the exploitation or disposal of such intangible assets (net of any direct expenses incl. finance costs to acquire/ develop IP and annual tax amortisation). The “old” Cyprus IP box closed as from 31 June 2016, however subject to conditions, under transitional rules, its provisions remain applicable.

As of 1st January 2017, an individual may also be considered as a Cyprus tax resident, if he/she satisfied the “60-day rule”, if the following conditions are satisfied:

1. Dividends received by a Cyprus tax resident company from other Cyprus tax resident companies are excluded from all taxes, unless they are indirectly declared after the lapse of four years from the end of the year in which the profits were generated, in which case they may be subject to Special contribution for defence at 17%. Dividends which emanate directly or indirectly out of such dividends on which special contribution for defence was previously suffered are exempt.

2. This exemption does not apply if:

- More than 50% of the paying company's activities result directly or indirectly in investment income and
- The foreign tax is significantly lower than the tax burden in Cyprus. The tax authorities have clarified through a circular that "significantly lower" means an effective tax rate of less than 6, 25% on the profit distributed. When the exemption does not apply, the dividend income is subject to special contribution for defence at the rate of 17%.

3. Such interest income is subject to personal income tax / corporation tax.

4. The Special contribution for defence rate on interest income of 30% is effective for interest received or credited from 29 April 2013 onwards.

Interest income from Cyprus government savings bonds and development bonds and all interest earned by a provident fund is subject to Special contribution for defence at the rate 3% (instead of 30%)

In the case where the total income of an individual (including interest) does not exceed €12.000 in a tax year, then the rate on interest income is reduced to 3% (instead of 30%).

For rental income where the tenant is a Cyprus company, partnership, the state or local authority Special contribution for defence on rental income is withheld at source and is payable at the end of the month following the month in which it was withheld. In all other cases the Special contribution for the defence on rental income is payable by the landlord in 6 monthly intervals on 30 June and 31 December each year.

For interest and dividends paid to Cyprus tax residents any Special contribution for defence due is withheld at source and is payable at the end of the month following the month in which they were paid.

However, Special contribution for defence due on dividends, interest and rental income from abroad is payable in 6 month intervals on 30 June and 31 December each year.

5. Rental income is also subject to personal income tax / corporation tax.
Foreign taxes paid can also be credited against the Special contribution for defence tax liability.

6. Legal entities are subject to Special Contribution for Defence if they are tax resident in Cyprus (see page 14). Prior to 16 July 2015 individuals were subject to Special Contribution for Defence if they were tax resident in Cyprus (see page 14). As from 16 July 2015 individuals are subject to Special contribution for defence if they are both Cyprus tax resident and Cyprus domiciled. An individual is domiciled in Cyprus for the purposes of Special Contribution for Defence if (s)he has a domicile of origin in Cyprus per the Wills and Succession Law (with certain exceptions) or if (s)he has been a tax resident in Cyprus for at least 17 out of the 20 tax years immediately prior to the tax year of assessment. VALUE ADDED TAX

IMPOSITION OF TAX

VAT is imposed on the supply of goods and provision of services in Cyprus, as well as on the acquisition of goods from the European Union (EU) and the import of goods into Cyprus.

REGISTRATION - COMPULSORY AND VOLUNTARY

Registration is compulsory for businesses with (a) turnover subject to VAT in excess of €15,600 during the 12 preceding months or (b) expected turnover subject to VAT in excess of €15,600 within the next 30 days.

Businesses with turnover of less than €15,600 or with supplies that are outside the scope of VAT but for which the right to claim the amount of the related input VAT is granted, have the option to register on a voluntary basis.

An obligation for registration also arises for businesses which make acquisition of goods from other EU Member States in excess of €10,251.61 during any calendar year. In addition, as from 1 January 2010 an obligation for VAT registration arises for businesses engaged in the supply of intra-community services for which the recipient must account for VAT under the reverse charge provisions. Furthermore, an obligation for VAT registration arises for businesses carrying out economic activities from the receipt of services from abroad for which an obligation to account for Cyprus VAT under the reverse charge provision exists subject to the registration threshold of €15,600 per any consecutive 12-month period. No registration threshold exists for the provision of intra-community supplies of services.

Exempted products and services, and disposals of items of capital nature are not taken into account for determining annual turnover for registration purposes. Registration is carried out by completing the appropriate application form.

- One company controls each one of the other companies
- A person (legal or natural), controls all the other companies
- Two or more individuals carrying out a business as a partnership control all the other companies.

Group registration means that transactions between members of the group are disregarded for VAT purposes. Only one VAT return is required to be submitted for all the companies in the group, instead of one VAT return for each company.

2020 TAX DIARY

See Appendix II at the end of this section

DOUBLE TAXATION TREATIES (DTTS)

Cyprus has a wide double taxation treaty network which serves as a strong incentive for foreign investment.

Irrespective of the existence of DTTs, Cyprus has unilaterally abolished withholding taxes on payments from Cyprus for dividends, interest or royalties (with a minor exception in the case of certain royalties for use in Cyprus).

Furthermore, as Cyprus is a full member of the EU, the EU Parent-Subsidiary Directive is applicable, eliminating the withholding taxes from payments between EU member states. In such cases, the DTT rates referred to in the specific treaties with other EU member states do not apply.

For a Table showing a list of the countries with which double taxation treaties have been concluded, as well as a summary of the rates of withholding taxes provided by the treaties, see Appendix I at the end of this section.

7 – ACCOUNTING & REPORTING

BOOKS AND RECORDS

Companies incorporated in Cyprus are required to keep proper books of accounts either at the company's registered office or at any place designated by the directors.

The books and records of a company are not open to inspection by anyone other than the directors and auditors. The Inland Revenue, as well as the VAT authorities can, however, request the production of any records while examining accounts for tax or VAT purposes.

The accounting records must show all sums of money received and expended all sales and purchases, assets and liabilities.

Other books required to be kept are:

- Register of members
- Register of directors and secretary
- Register of directors' interests (in shares of the company)
- Register of debentures and charges
- Minutes of directors' and shareholders' meetings.

The Income Tax Law requires that all transactions of a company must be entered in the company's accounting records within 4 months from the date of the transaction.

VAT laws require that the VAT returns be prepared on a quarterly basis (the quarters are decided by the VAT office and are not necessarily on a calendar basis). Furthermore, VIES Returns (an EU system of reporting cross-border business-to-business transactions within the EU) are required to be filed on a monthly basis.

In practice, therefore, in order to ensure full compliance, companies should update their bookkeeping records in maximum of monthly cycles.

ANNUAL RETURNS

All companies must file an annual return giving details of the company's capital structure, mortgage particulars, and particulars of registered shareholders, directors and secretary.

A copy of the annual financial statements must be attached to the annual return, with an auditors' report (now required for all companies), and a Management Report (previously referred to as Report of Board of Directors) where this is required (see further below). The documents filed with the Registrar of Companies must be in Greek (or Turkish) and are open to public inspection. By concession, the financial statements filed with the Annual Return may be in English.

FINANCIAL STATEMENTS

Financial Statements must be prepared by all Cyprus incorporated companies once a year and presented at the shareholders' annual general meeting.

They may be in any language, but a Greek or English translation is required to be filed with the Registrar of Companies as an attachment to the company's Annual Return. The accounting period should be for twelve months ending on any date decided upon by the directors. Financial Statements should be prepared in accordance with International Financial Reporting Standards as adopted by the EU and International Financial Reporting Standards as issued by the IASB and should comply with the Companies Law, Cap. 113. The Accounting year-end is deemed to be 31 December, unless notice of another date is given.

Categories of Companies

In September 2016, the Cyprus Companies Law was amended, and *inter alia*, introduced new definitions of Small, Medium and Large sized Companies, summarised in the below table:

Category	Criteria			Condition
	<i>Total Gross Assets</i>	<i>Net Turnover</i>	<i>Average No of employees during the financial year</i>	
<i>Small Companies</i>	Less than €4.000.000	Less than €8.000.000	Less than 50	As at their balance sheet dates do not exceed the limits of at least two of the three criteria.
<i>Medium- sized Companies</i>	Less than €20.000.000	Less than €40.000.000	Less than 250	Are not small companies and which as at their balance sheet dates do not exceed the limits of at least two of the three criteria.
<i>Large Companies</i>	More than €20.000.000	More than €40.000.000	More than 250	As at their balance sheet dates exceed at least two of the three criteria.

An important change arising from the amendments was that small/dormant companies are from now on subject to statutory audit, as the exception that existed in the Law has been abolished.

Small companies are, subject to certain conditions, exempt from the obligation to prepare management report.

STAND-ALONE AND CONSOLIDATED FINANCIAL STATEMENTS

SMALL/MEDIUM SIZED GROUPS OF COMPANIES

Categories of Groups

In September 2016, the Cyprus Companies Law was amended, and *inter alia*, introduced new definitions of Small, Medium and Large sized Groups of Companies, summarised in the below table:

Category	Criteria			Condition
	Total Gross Assets	Net Turnover	Average No of employees during the year	
Small Groups	Less than €4.000.000	Less than €8.000.000	Less than 50	On a consolidated basis, do not exceed the limits of at least two of the three criteria as at the balance sheet date of the parent company
Medium-Sized Groups	Less than €20.000.000	Less than €40.000.000	Less than 250	Groups which are not small groups, and which, on a consolidated basis, do not exceed the limits of at least two of the three criteria as at the balance sheet date of the parent company
Large Group	More than €20.000.000	More than €40.000.000	More than 250	Groups which on a consolidated basis, exceed the limits of at least two of the criteria as at the balance sheet date of the parent company

If a Cyprus company is holding subsidiaries, it is required to prepare consolidated financial statements. The following exemptions apply:

- Small and medium sized groups (see definition above) may be exempt from the obligations to draw up consolidated financial accounts (Note: The exemptions from consolidation in the cases of (i) severe and long-term restrictions, (ii) disproportionate cost or undue delay and (iii) held exclusively with the view to subsequent sell, as these were provided by the previous Law have been abolished.
- Groups of companies, the holding or mother companies of which publish consolidated financial accounts on the basis of Generally Accepted Accounting Principles, shall be exempt from the obligation to draw up consolidated financial accounts.

Under the Companies Law, the term ‘small/medium-sized group’ shall mean a group of companies, of which the companies being consolidated:

- Are non-publicly-traded companies
- The drawing up of their consolidated financial accounts is not subject to other legislation
- Fully comply with two out of the three criteria referred to above at the date of closure of the balance sheet of the holding company

AUDIT OF FINANCIAL STATEMENTS

The Financial Statements of all Cyprus companies have to be audited by an independent auditor or auditors

Note: From September 2016, small/dormant companies are subject to statutory audit, as the exception that existed in the Law was abolished.

See also the below requirements of Income Tax law which effectively obliges all Cyprus companies to prepare audited financial statements.

The auditors are required to express an opinion on the financial statements and state the following in the auditors' report:

- Whether they have obtained all the information and explanations which, in their opinion, were necessary for the purpose of their audit
- Whether, in their opinion, proper books of account have been kept by the company
- Whether the financial statements (balance sheet and profit and loss account) are in agreement with the books of account
- Whether, in their opinion, the financial statements give the information required by law, and give a true and fair view of the state of the company's affairs as at the date of the balance sheet and the profit or loss for the financial year ended on the balance sheet date
- Whether, in their opinion, the information given in the Management Report (previously referred to as “report of the Board of Directors”) is consistent with the financial statements.

Furthermore, auditors in Cyprus have to follow International Standards on Auditing and report as to whether the financial statements comply with International Financial Reporting Standards.

ANNUAL INCOME TAX RETURN

Every company resident in Cyprus for tax purposes is required to complete and submit an annual Income Tax Return (TD4) to the Department of Inland Revenue (Cyprus Income Tax Office, CITO).

The annual Tax Return for all Cyprus companies (including small companies) should be based on the Company's standalone financial statements.

Cyprus Tax Laws require the TD4 to be based on the Company's audited financial statements and be accompanied by an Auditor's Confirmation of compliance.
